

Date: 12/28/05**To: Alicia Barrera****Through: Bill Garrett/ Rob Wienke****From: Stephen Wittmer****Subject: Hudd Distribution Services Inc 5011 Firestone Place South Gate 90280****Inspection Request: Alicia Barrera****Determine the current operation; issue temporary permit if appropriate.****Inspection: 12/28/05****Contact: Freddie Varela, Maintenance****Findings:**

- The facility is primarily a warehousing operation and transfer station for several large retail companies; including Wal-Mart.
- The only IW discharge is from a forklift and yard diesel cleaning operation.
- The wash pad is currently greater than 400 sq. ft., but it could easily be reduced to less than 400 sq. ft. to avoid the permit requirement.
- The maintenance of the yard diesels and the fork lifts is done by contract vendors.
- A letter should be send to David Fitzsimmons, Maintenance Supervisor that details the need for a reduction of area exposed to rainwater intrusion. The address is as follows:
David Fitzsimmons
Maintenance Supervisor
Hudd Distribution Services Inc.
5011 Firestone Place
South Gate, CA 90280-3591

Conclusion:

- The wash pad is currently greater than 400 sq. ft., but it could easily be reduced to less than 400 sq. ft. to avoid the permit requirement.
